<b>Background:</b> <p>Jonathan is Director, Corporate and Technical Risks for Cunningham Lindsey UK. He was appointed to the Board on June 1<sup>st</sup> 2010 with responsibility for the corporate market and International Broker strategy. A qualified loss adjuster who joined the profession nearly 30 years ago Jonathan is also head of Cunningham Lindsey's Global product liability Specialist Practice Group,</p> <p>He has specialised in financial losses particularly those arising from major fires and contractual liabilities. Jonathan has dealt with claims in over 30 countries.</p> <p>He has advised insurers and corporations in a variety of product recall matters in the food, chemical, manufacturing and consumer industries. Jonathan has acted for major international corporations to develop with them recall plans including definition of hazards.</p>		

He has lectured widely on risk management issues including decision making and lessons that can be learnt from claims

Jonathan is a graduate in biochemistry and biochemical engineering from Oxford and London Universities.. He was Director of Claims at the Financial Services Compensation Scheme during the banking crisis and there developed and implemented an internet based claims system for on-line claims handling. Prior to that he was at Crawford & Company where he was SVP Global Quality and Compliance.

**Experience:**

- Major international product losses (Liability and Recall) including food and life sciences industries, motor and chemical industries, construction and marine components
- Business Interruption, mortgage guarantee and fidelity guarantee claims
- Lead adjuster on major fires at production plants, warehouses and retailers
- Expert witness on policy interpretations, product recall and loss quantification
- Implementation and management of multinational accounts
